

KAMLAKANT KUMAR

Software Development Engineer (SDE) · MERN Stack · Java · Data Structures & Algorithms

+91 9508447711 · kamlakant.kumar@email.com · Vadodara, Gujarat · LinkedIn · GitHub

PROFESSIONAL SUMMARY

Computer Science undergraduate and Full Stack Developer with a strong foundation in data structures, algorithms, and object-oriented programming, backed by hands-on experience building scalable, production-quality web applications with the MERN stack. Comfortable across the stack, from designing RESTful APIs and data models to building responsive, performant frontends. Active problem-solver with consistent coding practice on LeetCode and GeeksforGeeks, seeking a Software Development Engineer role to apply strong fundamentals and full-stack engineering experience to build reliable, well-tested software.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), HTML5, CSS3

Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, RESTful API Design, Agile/Scrum

Frontend: React.js, Redux (basic), Tailwind CSS, Bootstrap, Responsive Design

Backend & Database: Node.js, Express.js, MongoDB, Mongoose, MySQL (basic), JWT Authentication

Tools & DevOps: Git, GitHub, VS Code, npm, Webpack, Vite, Postman

Other: Figma (basic), Unit Testing, Web Performance Optimization

PROJECTS

College Helpdesk Chatbot AI

MERN Stack (MongoDB, Express.js, React.js, Node.js), NLP Integration, Tailwind CSS · github.com/kamlakantkumar51/college-helpdesk-chatbot

- Designed and implemented a full-stack AI helpdesk chatbot automating student queries on admissions, fees, exams, and campus services, with REST APIs and MongoDB-backed ticket management.
- Built a responsive React.js chat interface and integrated NLP-based intent recognition, reducing manual helpdesk workload by ~40%.
- Implemented JWT-based role authentication with an admin dashboard to track unresolved queries and chatbot performance metrics.

Kavach AI – Voice-Controlled Desktop Assistant

React.js, Node.js, Express.js, MongoDB, Web Speech API · github.com/kamlakantkumar51/kavach-ai

- Engineered a full-stack voice assistant with a React.js frontend and a Node.js/Express.js + MongoDB backend for processing voice commands and persisting command history.
- Integrated the Web Speech API for client-side voice capture, cutting backend round-trips by 25%.

EXPERIENCE

AI Web Development Intern — InAmigos Foundation (IAF)

Jun 2026 – Jul 2026 · 2 mos

Internship

- Developed AI-powered web applications using React.js, Node.js, and MongoDB.
- Integrated AI features to improve user interactions and overall product experience.

Software Engineering Virtual Simulation — Accenture

2025

- Completed full-stack development modules covering UI architecture design, API integration, responsive development, and component testing.
- Practiced Agile sprint workflows, code reviews, and feature delivery within simulated cross-functional engineering teams.

EDUCATION

B.Tech – Computer Science & Engineering, Parul University, Vadodara, Gujarat

2023 – 2027

Senior Secondary (Class XII) – PCM, CBSE, Gyan Bharti Senior Secondary School, Bihar

2020 – 2022

Secondary (Class X) – CBSE, Manas Prabha Public School, Bihar

2020

CERTIFICATIONS & ACHIEVEMENTS

Certifications: Java Programming (Udemy) · Cybersecurity Fundamentals (Cisco) · AWS Cloud Practitioner Essentials (AWS) · Skyscanner Front-End Software Engineering Virtual Experience Programme (Forage)

- Earned Daily Coding Challenge & Streak badges on LeetCode for consistent problem-solving in Java.
- Completed a Skyscanner-branded job simulation on Forage, building a web application using React as a front-end engineer.

Coding Profiles: LeetCode · GeeksforGeeks · GitHub
